

IN THE CLAIMS

Please amend the claims as follows:

2011-09-07

Claim 1 (Currently Amended): An information processing apparatus comprising:
first recording means for recording one moving picture in at least one recording increment;
second recording means for recording a still picture corresponding to a predetermined one of said recording increments of said moving picture; and
third recording means for recording information about said moving picture being recorded by said first recording means, ~~said information comprising at least one parameter corresponding to at least one of date of creation, date of modification, expiration date, and safeguard against inadvertent erasure; and~~
a user interface configured to receive a user instruction to modify said moving picture recorded in at least one recording increment recorded in said first recording means.

Claim 2 (Original): An information processing apparatus according to claim 1, wherein said second recording means records a still picture corresponding to a scene switchover of said moving picture.

Claim 3 (Original): An information processing apparatus according to claim 1, wherein said first recording means uses a file as said recording increment.

Claim 4 (Original): An information processing apparatus according to claim 1, wherein said first recording means records said one moving picture to at least one storage medium.
